

Dear Sir or Madam,

Due to the theft of aluminium ingots made of alloy 226 (EN AB-46000), produced by GRALUM Sp. z o.o., we kindly ask for your assistance in identifying any material matching the following description that may appear at your facility.

Material details:

Alloy: 226 (EN AB-46000)

Form: Aluminium ingot

Marking: The ingots are stamped with the letters "EKO"

Ingot appearance:

Material on the vehicle:

Vehicle brand: Man

Should such material be found among incoming scrap or finished goods, we respectfully request that you contact our foundry immediately:

Rafał Matyasik

Mobile: **+48 602 654 627**

E-mail: rafal@gralum.pl

Alternatively, please notify your local **Police department**.

We sincerely appreciate your vigilance and support in combating dishonest practices in the transport and trade of raw materials.

Kind regards,

The GRALUM Sp. z o.o. Team
